

## How to Set Preferences

1. Click the right-most button (More).

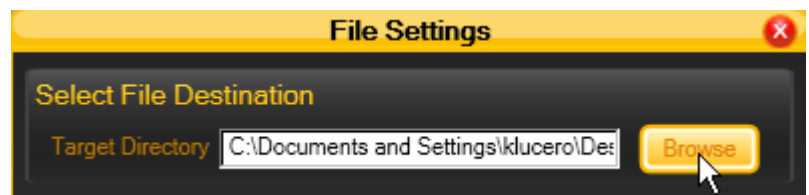

2. Select the center button for Preferences.

3. When setting Preferences you will most often choose either File or Screencast (online). Choose File.

4. Browse to the location where you want all your captures stored. It can be a folder on your desktop or My Documents, or even a network drive to share with students.

5. Next set up your Screencast preferences. It's free and easy to create an account with Screencast.
